Letter of recommendation for Tom Lamatrice, TFL Development.

I contracted with TFL Development to repair a hurricane damaged home at 117 Roselle Ct. in Port Charlotte, Fl. TFL was recommended by a neighbor who had hired him to build a garage. Tom and his crew were responsible for all interior and exterior painting, drywall, insulation and ceiling replacement in one room, replastering the ceiling throughout the home, all exterior damage such as soffits and gutters and replacing all of our windows and the front door.

I found Tom and his crew to be excellent at their craft. All of the work was completed with attention to detail and complete satisfaction. Tom was very accessible, especially considering that most of our interaction was long distance.

We were so pleased with the work Tom Lamatrice completed for our insured damage that we hired TFL for other improvements that were not related to the hurricane repairs. This house has never looked so good!

Sincerely,

Sandra Van Vlymen
